

PMR4000RMKII

Media player with internetradio/FM tuner/USB/UPNP

PMR4000RMKII is a multi source music player that makes your life easy. The integrated FM RDS tuner, internet radio, UPnP and USB media player allows you to select your favorite music sources. You can play all files (MP3, WMA, FLAC, WAV) which are located on your different network devices.

The unit is equipped with analogue outputs, optical digital output for the digital media player, wired Ethernet and 2.4G/5G Wi-Fi. Because the PMR4000RMKII features a menu guided setup and operation, it is very installer and user-friendly.

This versatile media player can be controlled via http-commands and via the user-friendly menu structure on the front panel or you can use the DOK app (Frontier Silicio) to control the PMR4000RMKII via your iPad, iPhone, iPod Touch or any Android device. This app connects automatically with your PMR4000RMKII and allows full control of the device including source and media selection.

By hooking the PMR4000RMKII up to your cable distribution or the standard wire antenna, you can listen to your local radio station. In case you want to enjoy internet radio, you can hardwire the unit to the internet or you can connect via the built-in 2.4G/5G WiFi. Music stored on a USB memory stick can also be played by the PMR4000RMKII if the USB is formatted in FAT32 file system. The UPnP server allows you to play all the music in the same network; whether it is stored on dad's desktop PC, your daughters' laptop or the family's NAS drive.

The infrared remote control and detachable 19" bracket are included. Working with the Apart PMR4000RMKII which has no mechanical parts inside, will soon become your most reliable music source!
